FAST FRIENDS!

[Copy 1ght 1885.]

The Boy and Dog are fast friends. Why? Because they never deceive each other.

So the business man who never misrepresents his goods establishes a confidence that makes the public his friends. This is the principle upon which we do our business. When we mark a garment "All Wool,"

we mean all wool and guarantee it. We have a very few lines of goods in which a little cotton has been carded in with the wool, and these are ticketed very plainly "Not All In this way our customers know

just what they are buying. If a customer is not pleased with his purchase, he can return the goods and receive back his money.

The institution is self-sustaining, and the immates are engaged in several industrial pursuits which, with the aid of the contributions of the generates patrons, support the house in a comfortable manner. The patrons of the institution include some of the leading society gentlemen and laddes and the gesters of the Catholic churches.

SOLDIERS' HOME HOMICIDE.

Patrick Naughton's Sanity Called in Question-The Evidence All In. The third day of the trial of Patrick Naugho, the old soldier charged with the killing of Edward Alexander Fee at the Soldiors' Home on Sept. 15 last, took place in the oriminal count yesterday. Drs. A. Y. P. Garnett, D. W. Bliss, D. P. Welbaupper, and W. W. Godding were examined as experts, and testified that a man having received a fracture of the skull with depression, Sc., similar to that of the prisener might, under great anger or excitement, become uncontrollable and have aberration of the mind. With this testimony the defense rested.

The government, in rebuttal, called Dr. Mc-Williams, who testified that he had seen no evidence of mental disturbances in the prisoner, and found him one of the most orderly and well behaved men to the jall. Br. J. F. Harlingan said that Naughton was quiet and respectival at the inquest, and realized the position in which he was placed. At this point the trial was adjourned for the day.

The success of a little girl in securing a kiss

PATENT The success of a little girl in securing a kiss from the President on Monday induced half a dozen mothers to take their best-looking children up to the reception yesterday. The President, however, was not in the mood for kissing dent, however, was not in the mood for kissing any one, and so the babies had to take the regulation handshake and go away. One found mother held her 2-year-old offspring up on a level with the President's face, and the youngster made a grab for the Executive mustache. The President shook its hand and turned to to the next. Preparing to Encounter Disease. Preparing to Encounter Disease. The prevalence of malarial disorders being dependent upon viliated conditions of atmosphere and water is, in certain regions, of course, inevitable. The grand question, therefore, presents itself to every resident of a fever stricken locality is, "What means shall adopt to escape the dreaded scourge?" For a third of a century licestory's Stomach Bitters has been the embedied answer to this question. In thickly populated, and sparsely settled districts alike, in town and in country, it has afforded constant protection against melarial infection to those who have used it. It cradicates and prevents, with count certainty, fever and agno, billous remittent, dumb ague and agus cate, and multifes also the perincious after effects of using persistently the hurtini alkaloid silpitate of quinine. It also remedies, with thoroughness, dyspepsis, liver complaint, constipation, debility, and rhetunatism. THE MARKETS.

Unprecedented Activity in Stocks-Wheat Fairly Active and Firm. NEW YORK, Nov. 18.—Never before in the history of the stock exchange has the market been so active as for a time to-day. The total reported sales for the first thirty minnies were 107,000 shares and for the first hour 20,033 shares. Between 10 and 12 o'clock the reported sales were 40,000 shares. While these are the figures taken from the official report it is certain that the actual business was very

are the figures taken from the official report it is certain that the actual business was very materially larger than indicated, as it was absolutely impossible to obtain reports of all transactions. The market continued active throughout most of the day, and the total safes were about the largest on record, aggregating 74,200 shores. They were slightly exceeded one day last week and the reported as less on a single day several years ago were a little over 10,000 shores. These are the few exceptions where business reported was slightly exceeded in the first of to-day.

St. Paul continues to lead with a lest to-day of 107,300 shares. Faven other moules—Western I nion, Minsouri, Kanasa and Toxas. Northern Puette preferred, Northwestern, Oregon Trans-continental, Lake shore, and Pacille Mail, with sales ranging between 62,600 and 30,550 shares each, in the order named—contributed 256,600 shares. The remaining 250 shares, or a good average day's business for the whole list, were distributed among ninety-eight different issues. It has been a long time since the business was so well distributed. The movement of prices during the day has been unusually irregular, although the general tendency of his market was strong during the early dealines, yet there were notable exceptions, in which very little, if any gains, were made.

M. Gould says that the buil statements that have been put in circulation and accredited to him are not true, but that has advised his friends not to buy any stock, as the present movement is a speculative craze that must end in disasters, there being nothing in the situation to warmin the high prices that have been made during the past ten days.

It is authoritatively stated that at the coming residen of the Dominion parliament the Causdian Pacific Italiway Company will ask for further public aid to enable them to consolidate and develop the winde railway system of the marking provinces. Rumors of the failure of the trunk lines to

announced as official that the Baltimore and
Oblo had not yet signed the contract, and that
Mr. Garrett was waiting the result of neodialions pending between his company and the
Pennsylvania ralitoned. It is thought by many
that the Raltimore and Ohio line will first build
a line to New York and then demand a much
larger percentage in any faiture pooling arrangements.

plantiffs allege that they were induced to invest this money in bonds of the road upon rapresentations by Harding and Stevers that the
line was paying, when, as a matter of fact, it
was not making rinuing expenses. The books
of the company were failefied with a view to
frandulently sequring this investment.

THE NOVEMBER CENTURY "is of remarkable interest in respect of both text and illustrations," says the N. Y. Sun. The number contains three short stories, one of the most striking illustrated papers that have appeared for a long time, "A Photographer's Visit to Petra," General Grant's article on Chattanooga, and many other strong points. It begins a volume, and the first chapters of Mrs. Foote's new serial story are here printed. Now is the time to begin to take THE CENTURY. For \$6.00 a new subscriber can get, from dealers or the publishers, the numbers of the past year, back to the ba-ginning of the War Papers, with a year's subscription. Regular price, \$4.00 a year, 35 cents a number.
